

To:

Clerk of Bankruptcy Court

I deeply object to cutting the medical plan for retirees (General Motors it is unfair, selfish, garbage. These people have worked hard for these benefits. Then at the last minute they are notified with this document that most of these can't even understand. Money was taken out of our checks on a weekly basis for this not to happen to us.

The higher ups didn't do anything but continued stealing from us. Continue or plan Continue don't cut anything this is total B.S.
